TURCO-BULGARIAN WAR SURE TO COME

Sultan Mortally Offended by Bulgaria's Note to Powers.

WHOLESALE MASSACRES ARE REPORTED

Peasants Join Insurgents And Guerilla Warfare Practiced.

[By Telegraph to The Age.]

Sona, Bulgaria, Sept. 15.—While it is possible that a Turco-Bulgarian war may even yet be averted, the probabilities of such an encounter were never greater than at the present moment. The recent note to the powers, the most decided step yet taken by the principality, was dictated not only by the alarming reports of wholesale massacres and devastation daily arriving, but even more by the indifference of the powers toward the severity of Turkey's repressive measures.

The Bulgarian government, through its foreign representatives, has addressed a note to the great powers declaring that the porte is systematically devastating Macedonia and massacreing the Christian people. Further, it says, Turkey has mobilized her whole army, which can not possibly be for the sole purpose of suppressing the revolution. Therefore, the Bulgarian government appeals to the humane sentiment of Europe to prevent the continuance of the massacres and devastation and to stop the mobilization of the Turkish army. The memorandum concludes with the plain statement that unless the powers intervene Bulgaria will be forced to take such measures as she may deem necessary.

Warned by sorry experiences, the revolutionary leaders have decided to adopt only guerrilla tactics in eastern Macedonia. The policy of occupying towns and villages has proved a mistake, as it has usually resulted in Turkey's reoccupying the villages, destroying everything and killing the inhabitants, the insurgents being hampered in their operations by the women and children. A guerrilla warfare is expected to exhaust the Turks much sooner, while the unhampered bands can move more easily, and more rapidly. It is hoped that the new tactics will result in the women and children being spared unnecessary dangers.

The insurgents now have nearly 2,000 men armed with rifles in eastern Macedonia and thousands of peasants are ready to join their forces when a general rising has been proclaimed. This step is delayed until the supply of rifles, cartridges and dynamite is received. New bands, aggregating 1,600 men, are reported to be on their way to the frontier. The Turkish forces now in eastern Macedonia are estimated at 17,000.

In the conflicts in the mountains of Pirin, the Turks are reported to have lost heavily in dead, while a great many were wounded. The revolutionaries had only one slightly wounded. The peasants are welcoming the insurgents everywhere with the greatest enthusiasm. The bands are experiencing great difficulty in obtaining arms. It is believed that not a single rifle can be found in Sofia, outside the garrison.

Routed Bulgarian Brigands.

Washington, Sept. 15.—Chekib Bey, the Turkish minister, called at the state department and had an interview with Acting Secretary Adee. A cablegram received by Chekib Bey from his government told of a fierce encounter which took place near Keerie between Turkish troops and Bulgarian brigands in which over 100 of the latter were killed and a large number taken prisoners. The dispatch also said that quantities of arms, ammunition and dynamite bombs were captured. The minister informed Mr. Adee that the operations of the Turkish troops recently has led to the capture of a large number of Bulgarian brigands, and that a state of panic exists among them in consequence of the determination of the sultan to suppress their lawless acts.

Prelude to Hostilities.

London, Sept. 15. — The important note sent by Bulgaria to the powers declaring that unless the latter intervened in Macedonia Bulgaria would be forced to take such measures as she may deem necessary, is held to be a prelude to the mobilization of the Bulgarian army unless Europe exerts itself in some way to prevent a conflict. There is probably some connec-

LIFE WENT OUT WITH THE SETTING OF THE SUN

Thomas Le Retilley Gathered To His Fathers, Full of Years and Honor.

A PIONEER MERCHANT

Expired in Shadow of Hill Where he Spent Many Useful Years.

Thomas Le Retilley a life long resident of Roscoe and one of its most highly respected citizens, succumbed to death, Monday evening, shortly after the sun had sunk behind the hill at whose foot the aged pioneer has lived so many years. He had reached the age of seventy-three, having been born in Roscoe, August 26, 1830.

He was one of six children. His father, James LeRetilley, came to this country from the Isle of Guernsey and settled near the old salt works at the foot of Wills Creek. In 1826 he brought his family to Roscoe and engaged in merchandising. Thomas Le Retilley's mother's maiden name was Elizabeth Taylor daughter of William Taylor, a native of Virginia.

The elder Le Retilley brought up his sons in the merchandising business and Thomas has continued to follow it all his life. For a short time he conducted a general store at Coalport. During this period he was married to Miss Barbara Ellen Ault, of West Carlisle, who survives him. They moved to Roscoe and Mr. Le Retilley opened up a grocery store. Up until a short time ago he was in business with his two sons, Jay LeRetilley and Thomas LeRetilley, jr., at the store just across the bridge from Coshocton. For about two years, Mr. and Mrs. Le Retilley conducted the old Commercial house at the corner of Main and Second streets in Coshocton, now known as the Farmer's hotel.

Thomas LeRetilley has always been recognized among his fellow townsmen as a man of the most sterling qualities. His life was gentle and few were the unkind words which passed his lips. He has been devoted to his wife, who has been a most faithful helpmate in his hours of sickness and trouble. Roscoe loses not only one of its oldest but one of its most worthy citizens, one of the last survivors of the older generation. He served two months in the hundred days' service at the close of the war and has taken great interest in grand army affairs. He served two terms as commander of Richard Lanning Post.

He has been declining in health for several years and became worse about two weeks ago. Last Friday he was taken bedfast with bronchitis and has failed very rapidly since. The final summons came Monday evening shortly after six o'clock. Besides his wife and two sons, two sisters, Rachel LeRetilley Burns, of Roscoe, and Elizabeth Starkey, of this city survive him. The funeral services will be held Thursday afternoon at 2:30 o'clock, standard time, and interment made at the Roscoe cemetery.

MUST CHIP IN FOR TOM

Local Democrats Assessed Half of $150, Expense of One Day of Johnson's Merry-go-Round.

Those who expect to dance must pay the fiddler.

Tom L. Johnson, candidate for governor, may be having a good deal of fun out of his tent-show, but local Democrats must help pay the freight. Tom L. doesn't even know Jones, who is usually accredited with looking after the expense of the cargo.

A prominent local Democrat this morning, confided to an Age reporter that he had been assessed to help stand the expense of the Johnson caravan. The understanding of the local Democracy is that the expense of Mr. Johnson's show is about $150 a day, and that the Democracy of Coshocton must meet $75 of this.

The objections are not few in number. "To hire a hall and a brass band, would be much cheaper, and considerably more dignified" was the expression of the informant to The Age.

The general opinion over the state that Mr. Johnson is in the campaign for fun and is paying his own expenses, seems to be a delusion and a snare.

It costs to buy gasoline for the automobile, same as buying hay for the elephant. And even a Democrat will admit that the party has a white elephant.

Coshocton is to be favored with the whole show. Mr. Johnson will be accompanied by Hon. John H. Clarke and they will expound in their tent Thursday evening on the Brown lot, which Dr Cooper made famous.

PILING IT UP ON PARKS

New York Walking Delegate Reaping Nefarious Rewards.

[By Telegraph to The Age.]

New York, Sept. 15.—The grand jury returned another indictment against Sam Parks, walking delegate, making the fifth indictment found against him. On one indictment Parks has been found guilty. The indictment returned charges Parks with the extortion of $500 from the Tiffany studios on Fourth avenue. Parks was arraigned before Judge Foster and bail was fixed at $2,000, which was immediately furnished. On Dec. 31, 1902, it is alleged, the men working on the buildings for the Tiffany concern stopped work, and, on Foreman Louis Schmitt inquiring the cause, he swears he was told to "go and see Parks." Schmitt says in his affidavit that he went and saw Parks and was told by the latter he was fined $500, "as an initiation fee, which the union demands." Schmitt says the money was paid to Parks at the latter's home on Jan. 5, and the men returned to work.

Martin Capper, of Canton, has taken a position temporarily at the Siegriest & Williams drug store.

UNVEILED SHAFT TO M'KINLEY

Senator Hanna Spoke at Imposing Ceremony At Toledo.

[By Telegraph to The Age.]

Toledo, Sept 15—With appropriate ceremonies the magnificent memorial statue to McKinley, the first memorial to the late president erected in Ohio, was unveiled in the presence of a mammoth crowd.

The day was almost perfect, the weather was clear and warm, with a nice breeze. There was a naval parade on the river, including the United States gunboat Michigan and the training ships Yantic and Hawk. Promptly at 2 o'clock the procession moved through the streets, led by a battalion of United States infantry from Fort Wayne, Detroit. Arriving at the monument, which stands fronting the court house, the statue was unveiled by Miss Dorothy Bonner.

Senator M. A. Hanna, Cleveland, was then introduced as honorary president of the day, and made a brief extemporaneous address. A dedicatory poem by Theodore McManus was read by the author, and then the orator of the day, Senator Charles W. Fairbanks of Indiana, made an appropriate address.

PARALYSIS RESULT OF SUDDEN FALL FROM WAGON

James Maxwell the Victim Of a Peculiar Mishap.

NECK BROKEN BUT LIVES

Cannot Move From Shoulders Down and Recovery Despaired of.

Excepting the use of his head and right arm, James Maxwell lies completely paralyzed at his home on South Lawn avenue as a result of an accident which befell him this morning near his home.

He left the barn in the rear of his yard at six o'clock and started to drive around through the alley and out Alder street and South Lawn to the front of his house. A little girl, his grandchild, was in the wagon with him.

Mr. Maxwell was seated on a feed box. When they reached Alder street Mr. Maxwell turned to speak to John Lowery who was passing. The feed box toppled over with him, and losing his balance he was thrown out backward over the side of the wagon.

The wheels did not strike him but he struck the ground violently. His left arm was dislocated at the elbow and one of the bones broken. He was also injured about the head and shoulders, but the three doctors who were summoned are unable to say just how serious the other injuries may be.

The vertebrae are broken, making his injury to all intents a broken neck.

The unfortunate man is almost helpless and has no use of his body from the shoulders down. He has remained conscious but suffered excruciating pain.

He is sixty-two years of age and it is feared the accident may prove very serious.

NO SNUB TO THE TEA KING

[By Telegraph to The Age.]

Oyster Bay, L. I., Sept. 15.—By authority of the president, the statement was made that the complication which arose over the Seawanhaka Corinthian Yacht club dinner had developed from a misunderstanding. The president explained to Colgate Hoyt, chairman of the board of trustees of the club, that he could not attend a large formal dinner, as by doing so he would be unjust to many friends and Americans whose invitations to similar affairs he had been obliged to decline. The president further wishes it to be known that he did not, in the remotest way, object to the presence of Sir Thomas Lipton at the dinner.

Russia Wants Another Year To Get Out of Manchuria.

JAPAN BRISTLES WITH BAYONETS

Chinese Are Urged to Reject Proposal of The Bear.

[By Telegraph to The Age.]

Washington, Sept. 15. — The many-sided Manchurian question is again to the fore and the state department has felt some uneasiness over the developments of the last few days.

It is now known that the Russo-American Chinese situation has again become acute, notwithstanding the reserve of the state department on the new developments, which are, in brief, that Russia wants to get a year's extension of time to get out of an important part of Manchuria and that for all time her railroad interests shall be conserved by Russian soldiers. On Saturday the state department officials were disposed to minimize the importance of Russia's demands, although the mere circumstance that she made any demands at all was sufficient to create a new and interesting situation.

Russia had given all the powers to understand that she would make a complete and general exit from Manchuria, which she took during the Boxer rebellion, and has retained ever since, on the plea of pacification and the protection of her Siberian railway connections.

The United States accepted without reserve the promises of the czar and invariably referred Japan to those promises when Japan wanted definite assurances.

Japan Enters Objection.

Peking, Sept. 15.—Chi Chung Tung, director of commerce, is urging the minister's to use their influence with Prince Ching, the president of the foreign office to reject the latest Russian proposals regarding the evacuation of Manchuria. He fears that Ching will accept the money unless pressure is brought to bear on him. M. Uchida, the Japanese minister here, has warned Ching against the acceptance of the Russian propositions.

MILITARY PRISON IN THIS DISTRICT

[By Telegraph to The Age.]

Washington, Sept. 15.—The annual report of Major General Bates, commanding the Department of the Lakes, has been given out for publication. It says that the character and general physical appearance of recruits is not up to the standard of former years. In reporting on the uniforms of the men, Colonel Heyl, inspector general, calls attention to the "baby blue" facings for infantry, which is regarded as unpopular and without exception opposed by all infantry officers. Return to the white facings, the report says, is universally desired. The mess system at Columbus barracks and Leavenworth is unsatisfactory and a return to company mess is recommended. The report concludes with an urgent recommendation for a military prison.

GOOD RECORD FOR CHURCH YEAR

When Rev H. I. Kohler went to Barberton to attend the U. B. church conference this week he felt the assurance of a very satisfactory condition in the church of which he has been pastor during the year just closed. For the first time in the history of the U. B. church in Coshocton all the reports were full and complete for the annual conference. During the year there was paid $1500 on the church debt, and there were seventy-five accessions to the membership.

The congregation addressed to the conference a unanimous expression that the pastor be returned.

FORTUNE FOR IMPROVEMENT U. S. MAIL BAGS

A fortune awaits some lucky and ingenious inventor who can devise an improvement on the present United States mail bag and its attachments, says the Brooklyn Eagle. The Postoffice department will shortly issue an advertisement, inviting those of an inventive turn of mind to give their attention to a study of the mail bag and its fastenings, in order that improvements may be suggested. This will be done, not because the present bag is unsatisfactory, but merely in following out the general policy of making improvements in the service wherever possible. At stated periods an advertisement of this kind is issued, in order to stimulate the interest of those who are given to the making of inventions. As the government now has in use more than 1,000,000 mail pouches and bags, it will be readily seen that a profit of a few cents on an attachment adopted in the service would net a respectable fortune.

There is room for improvement in the lock that is used in closing the bag, while the fastener is also far from perfect. The label holder, which incloses the slip of paper telling the destination of each bag, is susceptible of betterment, and the bag itself may be improved. The Postoffice department now employs a canvas mail pouch, fitted with a stiff leather bottom and soft leather head, this being superior to the all-leather bag. One of the officials of the department said today that few individuals had profited by the numerous devices that had been adopted in connection with the mail bag in the past twenty years. "Practically every improvement of the bag that has been made in twenty years," he said, "has been suggested by some one in the service, and the government has adopted them all without rewarding any one."

FIRE-FIGHTERS ORGANIZE.

Pittsburg Firemen Form Union to Prevent Political Coercion.

Pittsburg, Sept. 15.—It is learned that the Pittsburg firemen have secretly organized a union and will receive a charter from the American Federation of Labor this week. The organization starts with 550 members and the intention is to follow with the organizing of the Allegheny fire department on Saturday next. When these two cities are thoroughly organized an international association will be formed by the federation, with the object in view of securing better pay with shorter hours for the fire fighters and a release from all political coercion.

Would Indict Lynchers.

St. Louis, Sept. 15.—The lynching of David Whyatt, the negro school teacher, in Belleville, Ills., June 6, claimed special attention in the charge of Circuit Judge Burroughs to the St. Clair county grand jury. Judge Burroughs declared that the crime was "unfortunate, illegal and ill advised" and he urged that the utmost endeavor be made to discover, indict and convict those who were guilty of the crime. He warned the jurors that their business interests must not be allowed to interfere with their duties as grand jurors.

DEMOCRATIC STATE PLATFORM, 1903

(Translated from the Original Tongue)

1. We endorse the Kansas City platform. We will demand the free and unlimited coinage of silver by the United States at the ratio of 16 to 1, without the consent of Mark Hanna or any other NATION on earth. We invited W. J. Bryan to come to Ohio and discuss the silver issue in the coming campaign, but we intend to place the name of three gold standard men upon our state ticket, all of which fought us in 1896. This will catch all kinds of "suckers."

2. We oppose government by injunction, and demand that the railroad companies pay at least half of their share of the taxes; but we intend to endorse the general attorney of the Nickel Plate Railroad company for United States senator. This plank is copyrighted.

3. We demand the initiatory referendum, but we know darned well that both are impossible under the American system of representative government. This is to catch the Populists.

4. We denounce the "boss" methods of Mark Hanna, but we intend to nominate for governor the most gigantic "boss" who ever rode a "Devil-cart" over a free people. This is our ideas of consistency.

5. We demand home rule for all the municipalities in the state, provided we can do the ruling. Of course we know that municipalities have no inherent governmental powers, and have only such as are conferred by the state through the legislature. This won't make any difference; we want to catch votes.

6. We belong to the party of Jefferson, Jackson and Tilden. The party that used to stand for something, and we intend to nominate as one of our candidates one of Sam Jones' lieutenants who has no party and don't stand for anything except socialism and office. There is nothing like pleasing everybody.

7. We intend to nominate one Republican on our state ticket. We would take on more if we had room.

We submit in confidence to the people of the state of Ohio, that this platform beats the NIGGER'S coon trap, which, only caught the coon from two directions—"coming and gwine." This platform not only does that, but it likewise catches the coon from each sidewise direction as well as diagonally from all other directions. It has the proper squint no matter where you stand.

If you don't believe the foregoing and other things which Tom Johnson believes—altogether—right now, we don't want you to vote with us.—Bowling Green Sentinel.

ALWAYS AGAINST SILVER.

Would Clarke Vote in the Senate —Bryan's Strange Surrender.

"It will be the United States senator who will have to deal with the currency question, and not the governor of Ohio, and in this respect, therefore, the nomination of Tom Johnson means nothing, while the nomination of Clarke means everything."—New Orleans Item.

The southern newspaper in this sentence hits the center spot of the fallacy, in fact the humbug, of the Johnson campaign pretense in Ohio so far as national issues are concerned. Johnson could not have controlled the convention except the silver men had helped him. He had to put into the platform a complete reaffirmation of the Chicago and Kansas City platforms. Even the "reorganizers," in their platform report, found it necessary to do the same thing. Still they were defeated three to one.

After all this Johnson rode roughshod over the silver men by compelling the convention to take Clarke, who has since declared that he is still for gold. By some strange seduction, Johnson also persuaded Bryan to endorse Clarke, the goldbug, but that is only hurting Bryan without helping Clarke.

To accomplish all this, Johnson defeated Lentz, the known silver supporter, by the unit rule in Cuyahoga county, by voting absentee delegates from Hamilton and other counties and by false statements to the delegates in general. And so the silver Democrats of Ohio are asked to elect to the United States senate the most vigorous gold supporter in the state, knowing that in the senate he will have a vote that counts upon this very question, and that against it always.

Toledo Jones told Bryan that the Johnson Democrats would adopt his "non-partisan" ticket in Lucas county. Evidently Johnson has no use for straight Democrats. They are "dead timber."

Myron T. Herrick summed up Tom Johnsonism when he told of a "splendid scheme to humanity exploited at Cleveland of putting all the tax either on land or the other fellow."

Held For Conspiracy.

Birmingham, Ala., Sept. 15.—Deputy United States marshals arrested William Bellinger, John Chance, James E. Deloach and R. B. Patton at Horse Creek, Walker county, in connection with the recent assault made on District Organizer Joe Hallier of the United Mine Workers of America, at that place. The charge against the men was conspiracy to injure or kill. Their bonds were set at $2,000 each, which they furnished.

Chauffeur Day's Death.

Milwaukee, Wis., Sept. 15.—The coroner's jury returned a verdict to the effect that no one was to blame for Chauffeur Frank M. Day's death in an automobile accident at the state fair grounds on Saturday. Testimony brought out the fact that the state fair officers demanded no faster time than a mile in 1:10, and Day is said to have understood that. Day was an Ohioan, hailing from Columbus.

Police Averted Lynching.

Columbus, O., Sept. 15.—Five hundred angry citizens chased Thomas Hargo, a colored man, several blocks because he beat a white woman, his wife. The mob ran him down, a rope was produced and Hargo was in danger of being lynched. The timely arrival of the police saved the fellow from serious injury. He was knocked down by bystanders and bruised by a shower of bricks.

Dropped Dead.

Ravenna, O., Sept. 15.—Hon. Friend Whittlessey, 73, dropped dead at his home in Atwater, from heart disease. He is survived by a wife, son and daughter. He represented Portage county two terms in the Ohio legislature and later was senator from the 24th and 26th districts, and was recently appointed trustee of the Ohio Experimental station at Wooster.

Was Despondent.

Decatur, Ills., Sept. 15.—Joseph S. Hewes shot himself in the head at the court house and died in a few minutes. He had been assistant city marshal, deputy sheriff, tax collector and held other offices, but at the time of his death was out of office and had become despondent.

Pittsburg's Ambition.

Pittsburg, Pa., Sept. 15. — John S. Lambie, president of the city council, introduced a resolution, which was unanimously carried by that body, inviting the Republican national committee to hold the next annual convention in Pittsburg.

THE PRESIDENT

Of the City Council, Wilkesbarre, Pa., Cured of Rheumatism.

Col. Wm. J. Harvey, a president of Wilkesbarre's city council, who will long be remembered for his great work for the city, was once a mere physical wreck, torn in every muscle and nerve from the frightful pains caused by rheumatism. He consulted the best physicians, went abroad, took mud baths, and almost every known treatment for the disease. A friend had had a very similar experience and Dr. David Kennedy's Favorite Remedy had cured him, so he recommended this great kidney medicine to Col. Harvey and he is to-day a well man, hale and hearty. He writes straight to the point:

Dr. David Kennedy,

Dear Sir:—This is to certify that I was permanently cured of rheumatism by the use of Dr. David Kennedy's Favorite Remedy.

Wm. J. Harvey.

Rheumatism is but another name for uric acid poisoning which is caused primarily by diseased kidneys. Cure your kidneys and the rheumatism disappears.

For all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, as well as sicknesses peculiar to women, Dr. David Kennedy's Favorite Remedy is unquestionably the greatest medicine known to the medical profession.

Tillman, charged with the murder of Editor Gonzales, asking for the revocation of the order appointing Judge Townsend to preside at the coming trial. The objections were on technicalities. Justice Pope will announce his decision later. The term of court, during which Tillman will be tried, will be convened Sept. 21.

Cure Catarrh by Nature's Own Method—Every Breath of Hyomei Brings Relief.

Nearly every one who has catarrh knows how foolish it is to try and cure it by drugging the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hyomei you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete Hyomei outfit costs but $1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

C. E. Anderson sold a great many Hyomei outfits and the more he sells the more convinced he is that he can perfectly safe in guaranteeing to refund the money if Hyomei does not cure.

Think Boy Was Murdered.

Defiance, O., Sept. 15.—Edward Poling, a Defiance youth of 17 years, is believed by his mother to have been murdered and his body sold to a Chicago medical institution. The police of three cities are working on the mystery. Poling, son of Mrs. Thomas Brookhart of this city, left here last March for Redic, Ill., where he worked for a doctor, writing home regularly. The doctor's name is withheld for the present. In June communications ceased and the physician was called up by long-distance phone and stated the boy was working in the country, but was all right. Worry ceased until his grip, with all his clothes, was received by the mother from Battle Creek, Mich. Among the clothes was an unsigned note saying, "I am going to California." The note was not in the young man's handwriting. The local police were notified and Redic and Battle Creek communicated with.

WESTERN ELECTRIC WANTS MEN OF GOOD MORALS.

The action of the Western Electric company of Chicago is posting notices to its employes against certain immoral practices which tend to impair their usefulness to the company is significant of the growing tendency of large employers of labor to fearlessly insist upon adherence to a code of conduct that assures a reasonable efficiency.

In this case the injunction issued by the Western Electric is directed against "playing the races, and all other forms of gambling, immoral conduct, and the excessive use of liquor or cigarettes." The company employes a thousand young men, many of whom are graduates of the technical and engineering colleges of the country. Its business is one that offers great opportunities for young men of good habits and of scientific or mechanical aptitude. Officers of the company have grown alarmed at the prevalence of the gambling fever among the young men, the desire to "play the races" being particularly pronounced. It has been found that this practice, as well as that of cigarette smoking and drinking, greatly impaired the efficiency of the young men and lessened their value to the company. The officers therefore determined to meet the situation boldly and plainly by giving notice that employes abusing themselves in this way would be subject to dismissal.

An interesting feature of the movement for decency and higher efficiency in this plant, according to the general superintendent, is the fact that the company has had no trouble with the 300 young men who come from technical schools and colleges. Men who have been discharged for immoral practices were not college men.

With this company it is not a question of morals primarily; it is a business proposition. While the company's influence would doubtedless be thrown to the side of good morals in any emergency, it is a fact that in this instance it is impelled by a purpose to preserve the efficiency and value of its help.

JOSHUA.

Joshua. That's the new appellation the Democratic press of Ohio is flinging at Senator Mark Hanna.

John H. Clarke, the tail of Johnson's tinsel kite, has endeavored to copy Uncle Mark as a phrase-maker and at the opening of the Johnson campaign at Akron, referred derisively to Senator Hanna as "Joshua."

He grew smart-alecky and insinuated that Joshua is a "farmer" name and that Hanna is a farmer. He evidently intended to cast reflection but reckoned without two things.

The farmer is the keystone of American citizenship, and before November Mr. Clarke will be begging for the farmer's vote, instead of poking fun at him and the biblical name he bears. Doubtless Clarke will be begging votes of Coshocton county farmers this week.

When we went to Sunday school we learned about Joshua and how he made the sun stand still.

The man that Clarke has dubbed Joshua, will do a few stunts this year. The first thing he will do will be to take the twinkle out of Johnson's star.

COFFEE

You buy coffee by the pound, but that is not the true way to reckon its cost. That is not the real way in which you pay for it. You pay for it by the liquid measure of the coffee pot. To secure proper strength, it may take twice as much of one kind as of another. Coffees vary. Thus, a pound of our 20c coffee has a beverage producing value equal to two pounds of ordinary coffee. This makes it the cheapest coffee in the world.

"ARIZONA" TO OPEN THE NEW SIXTH STREET THEATRE

"Arizona," the greatest American comedy drama ever written, is to be the opening attraction of the new Sixth Street theatre. The announcement was made by Manager Callahan Monday afternoon.

"I have held off making public announcement" said Mr. Callahan to an Age reporter, "for the reason that we have not been certain when the theatre would be ready for the opening. The chairs were shipped the tenth, Ackerman's men, of Ft. Wayne, are here and pushing the decorating, the carpenters are putting on the finishing touches, the plumbers are almost through, excavation is being made for the sidewalk from Main street, the city is putting in the sewer, and things are at last in shape where we may 'know where we are at.' I take especial pleasure in presenting 'Arizona' to the playgoers of Coshocton, for it is unreservedly the best American drama ever written I looked over the entire field thoroughly before making the selection, and feel that more people will be pleased by 'Arizona' than by any other production extant."

The opening of the new house will consume two nights, Thursday and Friday, October 1 and 2. Arizona was written by Augustus Thomas and is put out by Kirk La Shelle. The company that comes here is the "first" company, and goes from here to Chicago for a fortnight's engagement. The piece has already had continuous runs of 500 nights in New York, 300 nights in Chicago and 300 nights in London. It has been translated into French, German, Spanish, Italian and Russian, and is being played in all of those countries. There is also a company playing it in the English-speaking cities of the East Indies, China and the Philippines. The company carries its own scenery, and the plot is intensely interesting and exciting, being laid in an Army post in Arizona and on a cattle ranch. It is a beautifully told, tender story of love, and intrigue, and the dash of military life adds to the keen enjoyment of an always interesting theme.

He's Surprised at Lipton.

A crowd stood outside Tiffany's window at Broadway and Seventeenth street, where the America's cup is displayed in a glass case.

"I wonder if this is the real cup or just a reproduction?" one lady said inquiringly to another.

"Real," was the reply. "Don't you see the card, 'America's cup won by the yacht America at Cowes, Isle of Wight, England, Aug. 28, 1851.' It has kept beautifully hasn't it?"

An Irishman came up.

"What's that?" he asked, crowding up to the window.

"That's the cup Sir Thomas is trying to lift," a bystander answered.

The Irishman looked hard at the base, the chased and engraved bulging center and the long neck with handle opposite duck-bill lip.

"An' is that the growler thy're raisin' all this fuss about?" he asked contemptuously. "Faith I m surprised at Lipton. There's plenty better on the other side."—New York Press.

A SUMMER TRIP UNSURPASSED ON THE CONTINENT.

The trip to Salt Lake City or to the Pacific coast via that point over the Denver Rio Grande System, "The Scenic L neiof the World," is the most beautiful in America. No European trip of equal length can compare with it in grandeur of scenery or wealth of novel interest. Then Salt Lake City itself is a most quaint and jicturesque place and well worth the journey. Its Mormon temple, tabernacle, tithing office and church institutions: its hot sulphur springs within the city limits; its delightful temperature, sunny climate and its Great Salt Lake — deader and denser than the Dead Sea in Palestine —are but a few features of Salt Lake City's countless attractions. Annual Canal Convention

(Zanesville Courier.)

As the time for holding the convention of the Ohio Canal association in this city draws nearer it becomes more and more evident that Zanesville owes it to her interests to aid in all possible ways toward making the gathering a success not only in attendance and enthusiasm, but in results achieved as well. The gathering convenes here Monday, September 28, and the prospects are excellent for accomplishing something in the improvement of the Ohio canal.

President H. J. Shore and Secretary John F Poorman are leaving no stone unturned in their efforts to secure a good attendance of citizens who have the foresight to see what would result from the improvement of the canal and the enterprise to aid in pushing the work along

Mr. Poorman has been over the route and has interested the various towns and cities in the proposed improvement. Letters to candidates for the legislature have met with favorable replies and the outlook for action by the general assembly is good

The Ohio Canal association is asking for a five foot channel and a width of fifty feet between Cleveland and Dresden. This will mean the rehabilitation of the present canal, making it five feet deep. With a four-foot canal boats of from 60 to 75 tons burden were used, but with a five-foot water way it will be possible to use from 125 to 150 tons.

The association is asking for a five-foot canal for the reason that a seven-foot depth would cost $13,000,000, a sum which the state could not afford to expend on the improvement. The canal can be changed to a five-foot channel with the other alterations necessary for about $562,000, and this is the sum which the legislature will be asked to appropriate at its coming session.

A seven-foot channel would mean the taking out of all the locks and bridges. The stone works amount to two-thirds of the cost of the entire improvement and the plan is to have as little expense as possible outside of the actual work of deepening the canal. Advocates of a five-foot channel points out that will be a great deal easier to get an appropriation of $500,000, than one of $13,000,000. In fact, they feel that it would never be possible to get the latter sum. They also take the ground that a five-foot channel is sufficient for all purposes and that it would be foolish to urge a seven-foot canal with a five-foot river.

The advice of the five-foot advocates is that the association make a reasonable request with the hope of having it granted. They urge that things be put into such shape that work can be begun next spring.

While the association urges the improvement of the Muskingum river between Zanesville and Dresden by the general government, it is not probabl that this can be secured at this time. As soon however, as the improvement of the canal from Cleveland to Dresden is made a certainty the river question will be taken pp again with renewed vigor. It is thought that with the canal in chape for traffic the government will be willing to spend sufficient money to insure an open water way from Lake Erie to the Ohio.

A circular letter calling attention to the coming convention of the Ohio Canal association at Zanesville says:

All questions pertaining to the canals and waterways of Ohio will be fully discussed by many of the most able and best posted men of the state The object of this association is to oppose the enactment of laws looking to the bandonment of the Ohio Canal, and to secure needed state legislation for the immediate and permanent improvement of said canal; widening and deepening the same to not less than 99 feet in width by 5 feet in depth and to advocate and agitate the earliest possible improvement of the Muskingum river from Zanesville to Dresden by the general government, thus resuscitating the once famous shortest and most practicable waterway route from Lake Erie to the Ohio river.

The territory through which it passes and is immediately contiguous contains more than one and ah alf million people of the 3,672,316, the entire population of Ohio in 1895. It passes through more than fifty cities, towns and villages, whose population aggregates nearly three-fourth s of a million. As an artificial waterway for transportation and general hydraulic purposes, it penetrates a populous, rich and fertile section of the state.

In a little over thirty years the gross receipts of our canals exceeded the total expenditures as maintenance operation, etc., by more than $5,000,000, during which time every dollar thus earned was placed to the credit of the general revenue fund and was used to maintain and run the state institutions , thereby keeping down the rate of taxation in every county in the state. In the report of the government engineers on our canals in 1895 the statement is made that should the state have retained possession of the canals instead of leasing them for 20 years at $20,000 per annum, the net earnings of the canals would have exceeded $20,000,000 up to that date instead of five million as the account now stands

The canals, while in possession of the state have always been the greatest source of net revenues the state ever owned. The Ohio canal is the only piece of commercial property the state owns today. There is property, as manufactories and other industries depending on the canal for power and other hydraulic purposes, the value of which is over $100,000,000, according to an authoritative statement made at our Akron meeting last April, which amount, at the minimum tax rate of 2 1-2 would turn into the state treasury 2 1-2 million dollars per year , which is more than the entire surplus in the state treasury today.

All this property will be enchanced in value according to the extent of the improvement of the canal, and which, in case of the abandonment of the canals will fall into disuse, be torn down and moved, and much of it out of the state, thus lossing to the state that amount of taxes and the water rent besides. When we consider, even the present amount of revenue resulting from water rents alone, and the enchancement of our hydraulic facilities, according to the extent to which the canal is improved, and the increased demand for water power along the entire route by manufactories and other enterprises, which are sure to come with the least degree of assurance of the permanency of the canal, who can predict the real value to the state of our great waterway route, from Lake Erie to the Ohio river?

IN PRAISE OF CHAMBERLAIN'S COLIC AND DIRRHOEA REMEDY.

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind." Further details of the destruction wrought by the hurricane have been received by mail and passengers on incoming trains. The steamer Inchulva of Liverpool went ashore near Boynton Friday night. The ship's steering gear broke and she floated at will, striking the beach with great force and breaking into three pieces. The captain, mates and 14 of the crew were saved. Nine were drowned, among them the engineer. The small boat with five men was battered to pieces by the waves and its occupants drowned.

Fountain Items.

The Big Store is the buisiest store of Coshocton today. The hundred of customers that thronged the Fountain Saturday afternoon and evening know by their experience how difficult it was to get waited upon, even though we have a force of thirty people. Well, we are going to have more. We will put 50 sales people behind the counters if necessary to meet the demands of the public. Our constantly increasing business is most gratifying to the management of the Fountain D. G. Co. We believe now most people are glad they have the trading facilities now offered by the Fountain company. We do not believe a single enterprise has been injured by the opening of Coshocton's Big Store—to the contrary new trade is coming to Coshocton. Some people who heretofore have thought it necessary to go out of Coshocton are now being pleased in a most satisfactory way at the Fountain, all for which the Fountain is very thankful. We shall endeavor to conduct the business of the Big Store in such a manner that it will not only command the respect of the people of Coshocton but will bring hundreds of new customers to this market to do their shopping. It is only natural when they come to us for Dry Goods they will also buy Clothing, Boots and Shoes, Groceries, Hardware, Jewelry and many other items from Coshocton's up-to-date merchants. COSTS IN CASE EXCEED DAMAGES

Oxford Road Dispute Settled By a Jury Trial.

The case of Mary Addy et. al. vs. Alex. Roddick et. al. was heard in common pleas court room before Judge Donley and a jury, Monday. The case grew out of a proposed alteration of a road in Oxford township and the dispute was over the amount of damages to be paid to the owners of the property over which the road passed. At five o'clock the jury brought in a verdict of one hundred dollars damages for the plaintiffs with an additional compensation of thirty dollars for the land taken up by the road. The jury viewed the premises last Friday. It is said the costs in the case will exceed the total amount of damages and compensation. Attorneys Glenn & Stockum and Lindsay represented the plaintiff and T. H. Wheeler the defendants. The defendants made a motion for a new trial. The motion was overruled by Judge Donley.
